READ:- G.O.Ms.No.990 Revenue, dated 2-5-41.
From the Collector of Salem Roc.No.5502/49 G1 d.27-3-49.

REFERENCE:-

In their order Ms.No.990 Revenue dated 2-5-1941 the Government sanctioned the employment of a permanent measurer under each of the taluk surveyors approving the suggestion of the Board that the pay of these measurers should be recovered from the ryots at a ~~first~~ flat rate of annas eight per diem on the days when their services were utilized in renewing missing stones.

The Collector of Salem suggested that in view of all increased F.T.A. and D.A. allowed to measurers as also the high rates of daily wages obtaining for coolies, the rate of recovery towards the measurers pay might be increased to Rs.one

A few collectors who were consulted agree to the suggestion of the Collector of Salem.

The Board therefore recommends that the rate of recovery towards the measurers pay may be raised from 8 annas to Rs.one for each day they are employed on renewals.

Ref: Board's Ref.No.4477/40-5 31-3-41 and B.P.Misc.372 M. dated 5-9-1942.

-:-:-

In the B.P. cited above it is mentioned that the pay of measurers should be recovered from the ryots at a flat rate of 8 as per diem for the days their services are utilised for the purpose of renewing missing stones and at the rate of one anna per stone if less than 8 stones are renewed in a day. These orders were issued when the pay of measure was fixed at Rs.12 and F.T.A. at Rs.6-8-0 Now that total amoluments of measurer work out to Rs.42-3-0 (pay Rs.12 - D.A.Rs.18

F.E.A. Rs.12-3-0 it is a matter for consideration whether the measurers pay to be recovered from the ryots may not be raised to Rs.1 considering the general increase in coôly charges.

2. At present Taluk surveyors attending to renewal of missing stones engage two coolies besides the measurer and charge a rate not exceeding 3 as a stone; but the special surveyors deputed for clearance of arrears under maintenance engage not less than 3 coolies and charges a rate of not less than 4 as. a stone. Thus in the same taluk there is disparity of recoveries from the ryots due to the above facts. If the proposal to enhance the measurers pay suggested in para I above is accepted there will be a general uniformity in the rate of recoveries from the ryots. Further a portion of the enhanced expenditure on account of D.A. and F.T.A. could be met from the increase recoveries from the ryots.
